

Tree Profile Fact Sheet

Habitat:

Describe the environment where the tree grows. What is the weather like? Cold, warm, does it rain a lot? What are some of the other plants that grow around it? Are there animals that depend on the tree to live?

History:

How did the tree come to be planted here? How long do you think it has been here? What kind of stories do you think it has? Or what do you think it has seen over its history?

Status:

What kind of challenges do you think the tree faces? Do you think it is successful where it is growing? Why or why not? How has this tree benefitted you and others where you live?
